REGENERATION NOT RED TAPE

Time and again we read in the local paper that development and progress are being hampered by senseless bureaucracy imposed by people who spend little or no time in our community but are quite happy to try to dictate what goes on.

Not only is this behaviour damaging to our community it holds back positive developments and investment. This nonsense must stop.

Preservation must be balanced with progress. As a director of Bute Conservation Trust I am committed to preserving our built and natural heritage. However, I also want to see our community thrive.

We cannot live in the past. Rather than drive away those who want to invest in our community we need to embrace ideas and developments which will breathe new life into this community and create much needed employment.

STILL WAITING

Broadband speeds which are getting faster generally seem to be getting slower on Bute.

With ever more services being delivered online, we need a fast, reliable connection to the internet.

Whether we want to video call with family, conference with colleagues or even access on demand content, our local exchange is not up to the task and desperately needs to be upgraded to acceptable modern standards.

ROUGH ROADS

Despite recent resurfacing works, more investment is needed in the island roads network.

For too long Bute has not received its fair share of investment in our roads. This has to change.

Please continue to report road faults to the Council on 01546 605 514, to demonstrate more needs to be done.

Later this year we all have a big decision to make. I will be voting to protect our Union with the United Kingdom. I believe this continues to offer the best for my family, my community and my country. How about you? Why not get in touch by returning this form or emailing me at: intouch@Peter-Wallace.com

- Count me In, I'm voting 'No'
- I would like to get involved fighting for a stronger Scotland in a United Kingdom.
